FRONT END DEVELOPER

The role :

Despatch Cloud is a rapidly growing company based in the UK. We are looking to hire an experienced Front End Developer to help sustain the growth. If you're a hard-working and dedicated developer , this will be a great opportunity. Apply today!

Requirements :

- Ability to code up HTML/CSS versions of graphics provided in PSD/Figma format with a pixel-perfect approach in mind,
- Having relevant experience and the ability to use your best judgment in how provided graphics respond for different screen sizes (responsiveness),
- Having experience with Vue.js,
- Ability to implement designed functionality in the provided graphics with Javascript (Vue.js, React.js or both),
- Ability to test implemented work on a range of devices,
- Ability to work in a fast-paced environment and meet tight deadlines,
- Take pride in what you do - attention to detail both visually and technically,
- Have a valid work permit to legally work in Turkey.

Desirable Skills (Non - Essential) :

- Knowledge of website optimisations,
- Experience maintaining Shopify-based websites,
- Knowledge of ElasticSearch
- Knowledge of eCommerce operations.

As well as a competitive salary, we offer a good working environment, paid holiday in the first year and career advancement. We genuinely consider our people as the most important aspect of our business, and look to see their career aspirations met.

Despatch Cloud is an equal opportunities employer and welcomes applications from all backgrounds. We are committed to a diverse workforce.
